

*"I am really happy with the way everything is going since we started installing Richwood products on our conveyors." - **Aggregate Producer East Coast***

*"Our Richwood Representative has played a major and valuable role in our efforts to improve the coal delivery system reliability. I am extremely happy with his support and efforts" – **Power Plant in Southwest***

*"We have not needed a vacuum truck on our barge unloader since the containment system was installed."- **Coal Fired Power Plant in Northeast***

*"Best Impact Beds and Liners on the Market-we value the fact that you always deliver on what you say." – **Coal Mine in Northeast***

*"Very impressed with the cleaners, looking to put them on every drive."- **Steel Company Eastern US***

*"Richwood cleaners and liners are the best. We have a low budget so we add a little at a time."- **Aggregates in Northeast***

*"After adding the On-Track, this is the best our belt has run in years."- **Rock Quarry in Western Kentucky***

*With Richwood, "We recently had the best mine production in the company. The ore now reports to the mill every day, in volume, and the belts keep right on running." -**Gold Company in Southwest US***

*"Liners are doing great. That was our biggest spillage area. As always, Richwood products have come through for us."- **Sand Plant East Coast***

*"We've had Richwood liners in for over four years and they still look brand new- we will be lining the rest of our chutes with Richwood." - **Refined Coal Plant Southern Ohio***
