

# How it works Tab

## Easy 5 Step Process

**1. Free Customer Design and Quote** Whenever you're ready, we can get you started on a free design and quote. We want you to love the finished product so we will be working with you every step of the way during the design process. First, we will need 2-3 pictures of your home and/or building where you want to decorate, followed by the address. Then, we can make an animated graphic design and send it back to you via email or text so we can be sure it's to your liking. If you have special needs or a large layout, we can set up an in-person meet time as well. Then we will talk about prices and possible install dates.

**2. Don't Worry, We Supply Everything!** From the lights, garland strands, wreaths, dusk-to-dawn timers and more. We supply it all! No running across town to here and there to get all the supplies needed, we've got you covered. Using our top of the line LED lighting and decor ensures a fantastic look we know you're going to love!

**3. Safe and Professional Installation** This is the part where you get to watch your lights and decorations come to life without ever having to step on a ladder or untangle your lights. We have all the safety equipment needed to keep your home and/or building, plus our installers completely safe. We do our best to work in a timely fashion so your home will be glowing with the joy of the Holiday Season in no time.

**4. No Worry Maintenance Guarantee** We want your house looking just right for the holidays. If a bulb goes out, a strand gets out of line or anything isn't quite right. Just give us a call and we will come and make the repair, no extra charge.

**5. Safe Removal and Storage** Removal of decorations begins one week after the holiday. We will contact you and let you know when we are coming. Once removed, we then inspect, repair, and replace where needed. Then store in a dry place where your custom decorations then wait for the next time you call, saving you the hassle of finding a spot in the garage. We do offer a return customer discount to say "Thank You for Your Business."
